Orientation for Career Development Courses

キャリア科目の履修申告と確認

当日説明します
Will be explained in
Japanese/English

① 修了要件確認

- 所属するコースの修了要件を学修案内で確認
- イノベーション人材養成機構（IIDP）またはコース開講のキャリア科目を履修し、以下の単位とGAs(Graduation Attributes : 資質・素養)を取得する

修士学生：2単位 かつ GA0M と GA1M の両方

博士後期学生：4単位 かつ GA0D と GA1D の両方

- 修了認定は所属コースが行う。

② 履修申告および取得した単位とGAsの確認

- 東工大ポータルからログインし、履修申告を「**教務Webシステム**」で行う。
- 取得した単位とGAsの確認は上記の「**教務Webシステム**」で可能です。

How to register for Career Development Courses

① Confirm the requirements for the completion of graduation

- Refer to your department study guide, syllabus, etc. to confirm the conditions for the completion of your degree program.
- All the graduate students in Tokyo Tech are required to earn the credits of Career Development Courses and Graduation Attributes (GAs) , which can be summarized as follows:

Master' s students … Two credits of career development courses and both GA0M and GA1M.

Doctoral students … Four credits of career development courses and both GA0D and GA1D.

Each department (graduate major) offers its own career development courses for the students belonging to that department. In addition, IIDP (Innovator and Inventor Development Platform) provides career development courses for the students affiliated with all departments. You can choose to take either the career development courses offered by your department or those provided by IIDP.

② Confirm your course registration and your previously earned credits or GAs

- Log in to **Tokyo Tech Portal** and Register for career development courses by yourself through the “**Web system for Students and Faculty.**”
- It is possible to confirm your registration, credits, and GAs through the above “**Web system for Students and Faculty.**”

(2021年度以前入学者向け)

2022年度以降に履修するキャリア科目（キャリア科目対応科目）のGA（Graduate Attributes）について

全学のキャリア科目（キャリア科目対応科目）に対応するGAは、2022年度から変更されます。

（修士課程科目：GA0M, GA1M 博士後期課程科目：GA0D, GA1Dとなります。）

2021年度以前入学者が2022年度以降にキャリア科目（キャリア科目対応科目）の単位を取得した場合、以下のGAを修得したとみなされます。

※各学生の成績画面（修了要件確認画面）等にも反映されます。

| | 単位取得科目のGA（2022年度～） | 2021年度以前入学者が修得したとみなされるGA |
|--------|--------------------|-------------------------------|
| 修士課程 | GA0M | COM |
| | GA1M | C1M |
| 博士後期課程 | GA0D | A0D, P0D* |
| | GA1D | A1D, A2D, A3D, P1D, P2D, P3D* |

*・・・各学生の選択教育院（ALP/PLP）による

※2021年度以前入学者については、各課程修了時まで、従来のキャリア教育体系（GA、博士後期課程の教育院）が適用されます。

2021年度以前に単位を取得したキャリア科目（キャリア科目対応科目）については、引き続き従来のGAが適用されます。

（単位取得時点で修得したGAは、修了まで変更されません。）

To graduate students who were enrolled before Academic Year 2022

Clarifications about GAs (Graduate Attributes) for career development courses starting Academic Year 2022

Important information on GAs' change:

The GAs for all the career development courses, including department-offered courses that can count as career development courses, will be changed from the beginning of AY 2022.

However, master's and doctoral students enrolled before Academic Year 2022 will be considered to have acquired the "original GAs" shown in the right column of the table below, for the career development courses they will take from Academic Year 2022. Note that the career development courses include department-offered courses that can count as career development courses. In addition, the original GAs will also be applicable to doctoral students according to their selection of either ALP or PLP. This is because master's and doctoral students enrolled before Academic Year 2022 will continue to hold the original GAs without any change, for the career development courses they took before Academic Year 2022 until they complete their graduation requirements, thus reflecting accordingly on grade transcript and official certificates that confirm the completion of graduation requirements. All the students can confirm their grade information or completion requirements information by themselves through the WEB system for Students and Faculty.

Table: Relation between new and original GAs

| | New GAs assigned to career development courses from AY 2022 | Original GAs acquired by students enrolled before AY 2022 |
|------------------|---|---|
| Master's Program | GA0M | C0M |
| | GA1M | C1M |
| Doctoral Program | GA0D | A0D, P0D* |
| | GA1D | A1D, A2D, A3D, P1D, P2D, P3D* |

*According to student's selection of either ALP or PLP
